- Stavanger, Norway

EXPERTISE

- Industrial AI & Operational Technology (OT)
- Generative AI & LLMs
- Data & Solution Architecture
- Industrial Data Platforms (Cognite CDF)
- Machine Learning
- Team Leadership & Management
- Cloud: Azure, GCP, Databricks
- Python, FastAPI, React.js

SECTORS

Oil & Gas · Offshore Energy · Renewables · Manufacturing · Maritime · Public Sector

LANGUAGES

Norwegian	Native
English	Fluent
French	Fluent

EDUCATION

MSc Industrial Mathematics
NTNU · 2000–2005

Master in Management
CERAM (SKEMA Business School) · 2005–2007

CERTIFICATIONS

AI-Akademiet (Sopra Steria) · 2026
NVIDIA AI, Compute & Networking · 2025
Foundations of Strategy · 2024
Power BI Desktop · 2021
Azure Fundamentals (AZ-900) · 2020
Machine Learning – Andrew Ng · 2020
The Science of Leadership · 2020
Scrum Master Certification · 2019

PROFILE

Technologist and leader with 20 years at the intersection of industrial operations and AI. Specialist in turning complex operational technology data (sensors, process systems, and 3D models) into scalable AI applications that deliver measurable impact in energy and industry. Track record of building and leading high-performing data science teams, architecting cloud-native data platforms, and driving digital transformation from concept to production.

EXPERIENCE

Sopra Steria

Aug 2025 – present

Regional Community Lead for Data Intelligence, Rogaland — Aug 2025 – present

- Leading Sopra Steria's Data Intelligence & AI community across Stavanger and Haugesund; driving technical excellence and knowledge sharing
- Building internal AI capabilities and identifying commercial opportunities within energy and industry
- Responsible for regional recruitment and growing the Data Intelligence team

Data Architect — Aker BP / ADA — Nov 2025 – present

On assignment at one of Norway's largest offshore E&P operators (N-DIGI & Remote Operations)

- Advancing enterprise data architecture within Cognite Data Fusion as part of the transition from legacy asset-centric models to modern CDF data modelling across Aker BP's offshore platforms
- Designing and implementing new data models, setting data-source onboarding priorities, and planning platform scaling for AI and digital-twin use cases driven primarily by the Yggdrasil field development
- Working directly with operational users and platform vendors to turn domain requirements into durable architectural decisions

Cognite Data Fusion · CDF Data Modelling · Solution Architecture · Stakeholder Management

Team Manager & Solution Architect

Jul 2024 – Jun 2025

Advania Norge (formerly Solv)

- Built and scaled the AI delivery team in Stavanger; people management, resource planning, and recruitment
- Designed and delivered AI-driven applications (Python / FastAPI / React.js) on Azure; CI/CD with Bicep & ARM
- Led generative AI projects in public transport, shipping optimisation, and enterprise automation
- Pre-sales: solution design, proposals, and customer presentations

Python · FastAPI · React.js · Azure AI Foundry · Azure Container Apps · Microsoft Fabric

Solution Architect · Head of Data Science

Jun 2018 – Jun 2024

Cognite AS

- Shaped Cognite Data Fusion into a scalable Industrial IoT platform for oil & gas, renewables, and manufacturing clients, integrating real-time OT data such as sensors, 3D models, and process diagrams into production AI applications
- As Head of Data Science: led a global team of data scientists and analysts, setting the strategy and engineering standards for developing, validating, and operating ML models in production, while managing recruitment, onboarding, and skill development
- Delivered predictive maintenance and production optimisation solutions on Databricks, Azure, and GCP with documented operational impact for industrial clients
- Contributed improvements to Cognite's open-source Python SDK; strengthened reusable, testable code practices across the developer community

Cognite Data Fusion · Databricks · Azure · GCP · Python · Docker · GitHub Actions · PostgreSQL · Terraform

Senior Solution Architect

May 2016 – May 2018

Visma bWise (now Twoday)

- Delivered BI solutions (QlikView / Qlik Sense) and data governance frameworks for Nordic clients; training and knowledge transfer throughout project lifecycle

Senior Consultant

Apr 2012 – Apr 2016

IBM

- Business analytics, process optimisation, and cognitive computing (IBM Watson / NLP) for clients in oil & gas

Consultant

Aug 2007 – Mar 2012

Accenture

- Database & data warehouse design, ETL, reporting solutions, and management consulting for large public-sector client
